Discover New AcuWave Water, Energy, Nutrition, and Financial Technology

We discuss energy medicine from the perspective of Asian medicine, *qigong*, Huna, and Metaphysical Energetics. Products increase energy, stamina, and mental focus (bio-coherence) and have anti-oxidant, anti-aging, and anti-stress effects, while following principles of natural medicine, The Law of the Terrain.

Here is a summary of what our water, energy, nutrition, and financial technologies do:

LIFEWAVE: LifeWave patches work according to principles of Asian energy medicine on acupuncture points, by balancing *qi* with light frequencies emitted from crystals, known as phototherapy. Crystal technology in phototherapy patches enhance energy, regulate weight, relieve pain, balance hormones, improve sleep, enhance mood, boost immunity, rejuvenate tissue, build muscle, burn fat, improve skin tone, increase glutathione, carnosine, melatonin, and hydration. Nutrition supplements: Anti-aging, anti-oxidant, and anti-stress effects increase Growth Hormone, enhance energy, mental clarity, heart, libido, and increase immunity, younger skin, lean muscle, and fat loss.
